CONCRETE REPAIRS

TOOLS YOU MIGHT NEED

- Trowel
- Steel brush
- Wet cloth
- Bucket
- Steel float
- Shovel
- Hose
- Spirit Level
- Access to clean water
- Plastic sheeting
- Wheelbarrow

COVERAGE

110 x 20kg bags are required per cubic metre

HOW MUCH DO I NEED

Scan this QR code with your smartphone to use one of our **quick calculators** or visit cementaustralia.com.au/ppg

JUST ADD WATER

To one 20kg bag of PROStrength® Extra Strength Concrete Mix add 2 litres of clean drinking water. Carefully add up to 0.5 litre more to make the mix workable.

Too much water ruins good concrete and will impact the ultimate strength performance.

PER 20kg BAG

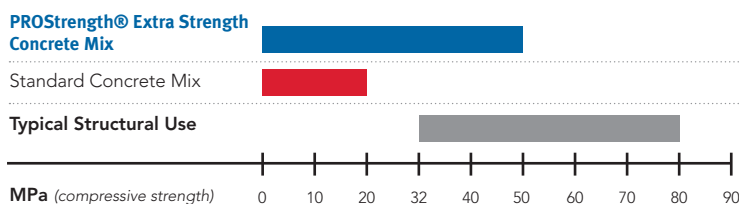

KEY FEATURES

- Twice the strength of a standard concrete mix; made for more demanding projects around the garden or home
- Technically superior: 50MPa compared to approximately 20MPa for standard concrete mix
- Locally made Australian product
- Convenient and easy to use, build with confidence

RETAILER BENEFITS

- An innovative extension to the bagged cement range, providing increased category profit margin, enabling customers to trade up to a higher strength product
- Building grade product in convenient 20kg bag for jobs where accessibility is limited
- Retail marketing support and trade communication program

PRODUCT COMPARISON

END USER

DIY

All DIYers tackling a project that requires higher concrete strengths

TRADE

- Professional Handyman
- Fencer
- Landscaper
