

Uni-Sand

PRODUCT DATA SHEET

Blue Circle® Uni-Sand is a dried and processed high purity fine washed sand.

FEATURES AND BENEFITS

- Multi purpose washed sand
- Clean and dried for ease of use

TYPICAL APPLICATIONS

Suitable to be used around the home in the areas such as sand pits, BBQ's and aviaries. Also in building applications such as paving, rendering, and tiling raw material added to cements and limes.

YIELD

One 20kg bag of **Blue Circle® Uni-Sand** will cover an area of 1m squared to a depth of 10 mm.

80 x 20kg bags to the cubic metre.

AVAILABILITY

Blue Circle® Uni-Sand comes in 20kg multi-walled paper sacks and handy 5kg plastic bags.

CLEANUP & STORAGE

Avoid generating dust. Cleanup can be vacuumed or swept up.

Store in a cool dry place and seal any unused material. **Blue Circle® Uni-Sand** has unlimited shelf life as it is 100% sand content.

SAFE HANDLING

Manual handling of bagged products without proper training may result in personal injury. Wherever possible you should use mechanical aids or share the load with another person.

Blue Circle® Uni-Sand contains crystalline silica. Use personal protection against dust exposure. Wash product off unprotected skin with water. The use of goggles, dust mask, barrier cream and rubber gloves is recommended.

For further safety information consult the **Material Safety Data Sheet** for the product.
